

Giovanni Barillari - *Curriculum Vitae* (aggiornato al 3 febbraio 2022)

Informazioni personali

Nome: BARILLARI, Giovanni

Indirizzo: Dipartimento di Scienze Cliniche e Medicina Traslazionale, Università degli Studi di Roma “Tor Vergata”, via Montpellier 1, 00133 Roma

Telefono: 39-06-72596510

E-mail: barillar@uniroma2.it

Titoli di studio

1983: Laurea in Medicina e Chirurgia, Università di Roma "Sapienza", voto 110/110 e lode.

1987: Specializzazione in Patologia Generale, Università di Roma "Sapienza", voto 70/70 e lode.

1989: Corso di Perfezionamento in Metodologia del DNA Ricombinante, Foundation for Advanced Education in Sciences (FAES), National Institutes of Health (NIH), Bethesda (MD), USA.

1989: Corso di Perfezionamento in Biologia Cellulare, FAES, USA.

1990: Corso di Perfezionamento in Metodi di Ricerca sul DNA, FAES, USA.

1991: Corso di Perfezionamento in Tecnologia di Amplificazione ed Ibridazione Molecolare, FAES, USA.

Cronologia d'impiego

2006-data odierna: Professore Ordinario di Patologia Clinica, Facoltà di Medicina e Chirurgia, Università degli Studi di Roma "Tor Vergata".

2000-2006: Professore Associato di Patologia Generale, Facoltà di Medicina e Chirurgia, Università degli Studi di Roma "Tor Vergata".

1993-2000: Ricercatore Universitario presso il Dipartimento di Medicina Sperimentale, Università degli Studi di Roma "Tor Vergata".

1988-1993: ricercatore ospite del Laboratorio di Biologia della Cellula Tumorale, National Cancer Institute, NIH, Bethesda (MD), USA.

1987-1988: borsista presso il Dipartimento di Medicina Sperimentale, Facoltà di Medicina e Chirurgia, Università degli Studi di Roma "Tor Vergata".

1983-1987: borsista presso l'Istituto di Patologia Generale, Facoltà di Medicina e Chirurgia, Università degli Studi di Roma "Sapienza".

Attività didattica corrente (anno accademico 2021-2022)

Università degli Studi di Roma “Tor Vergata”, Facoltà di Medicina e Chirurgia

Corsi di Laurea Magistrale. Titolare dell'insegnamento “Patologia Clinica” ed affidatario dell'insegnamento “Patologia Generale” presso il Corso di Laurea in Odontoiatria e Protesi Dentaria.

Corsi di Laurea Sanitaria Triennale. Titolare dell'insegnamento “Patologia Clinica” presso il Corso di Laurea in Igienista Dentale e presso il Corso di Laurea in Tecniche di Fisiopatologia Cardiocircolatoria e Perfusione Cardiovascolare.

Scuole di Specializzazione. Docente presso la Scuole di Specializzazione in “Patologia e Biochimica Clinica”, “Medicina Interna”, “Oncologia” e “Endocrinologia e Malattie del Metabolismo”.

Scuole di Dottorato. Docente presso il Dottorato in Medicina Sperimentale e dei Sistemi.

Catholic University “Zoja e Këshillit të Mirë”, School of Medicine, Tirane, Albania. Insegnamento “Patologia Clinica” e “Patologia Generale” presso il Corso di Laurea in Odontoiatria e Protesi Dentaria.

International University of Health and Medical Sciences “UniCamillus”, Rome, Italy.

Insegnamento “Patologia Clinica” presso il Corso di Laurea in Medicina e Chirurgia e presso il Corso di Laurea in Scienze Infermieristiche.

Incarichi scientifici

Revisore di progetti di ricerca scientifica presentati al Ministero della Salute oppure al Ministero dell’Università e della Ricerca. In tale contesto, è iscritto nel registro degli esperti scientifici indipendenti, italiani e stranieri (*Register of Expert Peer Reviewers for Italian Scientific Evaluation, REPRISE*), istituito presso il Ministero dell’Università e della Ricerca.

Revisore di articoli scientifici presso riviste internazionali con ISSN quali, ad esempio, *Cancers, Current Oncology, International Journal of Molecular Sciences* ed altri.

Membro del Comitato Editoriale di *International Journal of Molecular Sciences* (casa editrice MDPI -Multidisciplinary Digital Publishing Institute, Basilea, Svizzera).

Socio Ordinario dell’Accademia Medica di Roma (Roma, Italia).

Incarichi istituzionali

2020 – *tempo presente*: componente dell’Osservatorio sulla Didattica, Facoltà di Medicina e Chirurgia, Università “Tor Vergata”.

Dicembre 2013-novembre 2019. Prorettore delegato alla Didattica d’Ateneo, Università degli Studi di Roma “Tor Vergata”.

2009-2013. Presidente della Commissione Didattica della Facoltà di Medicina e Chirurgia, Università degli Studi di Roma “Tor Vergata”.

Attività Scientifica

L’attività di ricerca è concentrata sullo studio: i) della formazione di nuovi vasi sanguigni e linfatici associata alla progressione neoplastica; ii) dei meccanismi alla base dell’invasività neoplastica e della metastatizzazione; iii) degli effetti oncogeni di proteine virali; iv) dei marcatori diagnostici e prognostici di neoplasia; e v) degli effetti antitumorali degli inibitori delle proteasi.

Pubblicazioni “*peer-reviewed*” prodotte su giornali con ISSN = 101; H Index = 34 (fonte *WEB of SCIENCE*); Numero totale di citazioni = 6071 (fonte *WEB of SCIENCE*)

Elenco delle pubblicazioni prodotte

1. Barillari G, Bei R, Manzari V, Modesti A. Infection by High-Risk Human Papillomaviruses, Epithelial-to-Mesenchymal Transition and Squamous Pre-Malignant or Malignant Lesions of the Uterine Cervix: A Series of Chained Events? *Int J Mol Sci* 2021; 22: 13543. doi: 10.3390/ijms222413543. PMID: 34948338; PMCID: PMC8703928 (review, ISSN 14220067, publisher: MDPI).
2. Benvenuto M, Ciuffa S, Focaccetti C, Sbardella D, Fazi S, Scimeca M, Tundo GR, Barillari G, Segni M, Bonanno E, Manzari V, Modesti A, Masuelli L, Coletta M, Bei R. Proteasome inhibition by bortezomib parallels a reduction in head and neck cancer cells growth, and an increase in tumor-infiltrating immune cells. *Sci Rep* 2021; 11: 19051 (article, doi: 10.1038/s41598-021-98450-6. PMID: 34561494; PMCID: PMC8463577).
3. Cafaro A, Barillari G, Moretti S, Palladino C, Tripiciano A, Falchi M, Picconi O, Pavone Cossut MR, Campagna M, Arancio A, Sgadari C, Andreini C, Banci L, Monini P, Ensoli B. HIV-1 Tat Protein Enters Dysfunctional Endothelial Cells via Integrins and Renders Them Permissive to Virus Replication. *Int J Mol Sci* 2021; 22: 317-340. <https://doi.org/10.3390/ijms22010317> (article, ISSN 14220067, publisher: MDPI).

4. Qiu Y, Maione F, Capano S, Meda C, Picconi O, Brundu S, Pisacane A, Sapino A, Palladino C, Barillari G, Monini P, Bussolino F, Ensoli B, Sgadari C, Giraudo E. HIV-protease inhibitors block HPV16-induced murine cervical carcinoma and promote vessel normalization in association with MMP-9 inhibition and TIMP-3 induction. *Mol Cancer Ther* 2020; 19: 2476-2489. doi: 10.1158/1535-7163.MCT-20-0055 (article, ISSN 15357163, publisher: American Association for Cancer Research).
5. Barillari G. The Impact of Matrix Metalloproteinase-9 on the Sequential Steps of the Metastatic Process. *Int J Mol Sci* 2020; 21: 4526. doi: 10.3390/ijms21124526 (review, ISSN 14220067, publisher: MDPI).
6. Barillari G. The Anti-Angiogenic Effects of Anti-Human Immunodeficiency Virus Drugs. *Front Oncol* 2020; 10:806. doi: 10.3389/fonc.2020.00806 (review, ISSN 2234943, publisher: Frontiers Media).
7. Barillari G, Monini P, Sgadari, Ensoli B. The impact of human papilloma viruses, matrix metalloproteinases and HIV protease inhibitors on the onset and progression of uterine cervix epithelial tumors: a review of preclinical and clinical studies. *International Journal of Molecular Sciences* 2018; 19: 1418-1442, doi: 10.3390/ijms19051418 (review, ISSN 14220067, publisher: MDPI).
8. Bacigalupo I, Palladino C, Leone P, Toschi E, Sgadari C, Ensoli B, Barillari G. Inhibition of MMP-9 expression by ritonavir or saquinavir is associated with inactivation of the AKT/Fra-1 pathway in cervical intraepithelial neoplasia cells. *Oncology Letters* 13: 2903-2908, 2017. doi: 10.3892/ol.2017.5835 (article, ISSN 1792-1074, publisher: Spandidos Publications).
9. Barillari G, Palladino C, Bacigalupo I, Leone P, Falchi M, Ensoli B. Entrance of the Tat protein of HIV-1 into human uterine cervical carcinoma cells causes up-regulation of HPV-E6 expression and a decrease in p53 protein levels. *Oncology Letters*, 12: 2389-2394, 2016 (article, ISSN 1792-1074, publisher Spandidos Publications).
10. Barillari G, Iovane A, Bacigalupo I, Labbaye C, Chiozzini C, Sernicola L, Quaranta MT, Falchi M, Sgadari C, Ensoli B. The HIV protease inhibitor indinavir down-regulates the expression of the pro-angiogenic MT1-MMP by human endothelial cells. *Angiogenesis*, 7 (4): 831-8, 2014. doi: 10.1007/s10456-014-9430-9 (article, ISSN 0969 0969-6970, publisher: Springer).
11. Bucchi L, Cortecchia S, Galanti G, Sgadari C, Costa S, De Lillo M, Caparra L, Barillari G, Monini P, Nannini R, and Ensoli B. Follow-up study of patients with cervical intraepithelial neoplasia grade 1 overexpressing p16INK4a. *International Journal of Gynecological Cancer* 23 (9):1663-9, 2013 (article, ISSN 1048-891X, publisher: Lippincott, Williams & Wilkins).
12. Barillari G, Iovane A, Bacigalupo I, Palladino C, Bellino S, Leone P, Monini P, and Ensoli B. Ritonavir or saquinavir impairs the invasion of cervical intraepithelial neoplasia cells via a reduction of MMP expression and activity. *AIDS* 26 (8): 909-919, 2012. doi: 10.1097/QAD.0b013e328351f7a5 (article, ISSN 0269-9370, publisher: Lippincott, Williams & Wilkins).
13. Sgadari C, Bacigalupo I, Barillari G, Ensoli B. Pharmacological management of Kaposi's sarcoma. *Expert Opinion on Pharmacotherapy* 12 (11): 1669-1690, 2011 (review, ISSN 1465-6566, publisher: Informa Healthcare).
14. Sgadari C, Barillari G, Palladino C, Bellino S, Taddeo B, Toschi E, Ensoli B. Fibroblast growth factor-2 and the HIV-1 Tat protein synergize in promoting Bcl-2 expression and preventing endothelial cell apoptosis: implications for the pathogenesis of AIDS-associated Kaposi's sarcoma. *International Journal of Vascular Medicine e-PUB DOI 10.1155/2011/452729*, 2011 (article, ISSN 2090-2824, publisher: Hindawi Publication Corporation).
15. Toschi E, Sgadari C, Malavasi L, Bacigalupo I, Chiozzini C, Carlei D, Compagnoni D, Bellino S, Bugarini R, Falchi M, Palladino C, Leone P, Barillari G, Monini P, Ensoli B. Human immunodeficiency virus protease inhibitors reduce the growth of human tumors via proteasome-independent block of angiogenesis and matrix metalloproteinases. *International Journal of Cancer*, 128: 82-93, 2011 (article, ISSN 0020-7136, publisher: Wiley-Liss).
16. Barillari G, Franzese O, Comandini A, Bonmassar E, Ensoli B. Spindle cells from AIDS-associated Kaposi's sarcoma (KS) lesions express telomerase activity that is enhanced by KS progression factors. *Oncology Reports*, 24 (1): 219-223, 2010 (article, ISSN 1021-335X, publisher: Spandidos Publications).
17. Albonici L, Sorge RP, Santeusanio G, Garofano P, Manzari V, Barillari G. Correlation between pathological data and the RNA expression of p53 or p53-targeted genes in primary invasive ductal

- breast carcinomas: a preliminary study. *Oncology Reports*, 23: 1119-1123, 2010 (article, ISSN 1021-335X, publisher: Spandidos Publications).
- 18. Barillari G, Franzese O, Iovane A and Ensoli B. Spindle cells from Acquired Immune Deficiency Syndrome (AIDS)-associated Kaposi's sarcoma (KS) lesions express telomerase activity directly relating to the RNA levels of fibroblast growth factor (FGF)-2. *International Journal of Cancer*, 127: 2487-2489, 2010 (letter, ISSN 0020-7136, publisher: Wiley-Liss).
 - 19. Barillari G, Iovane A, Bonuglia M, Albonici L, Garofano P, Di Campli E, Falchi M, Condò I, Manzari V, Ensoli B. Fibroblast growth factor-2 transiently activates the p53 oncosuppressor protein in human primary vascular smooth muscle cells: implications for atherogenesis. *Atherosclerosis*, 210 (2): 400-406, 2010 (article, ISSN 0021-9150, publisher: Elsevier).
 - 20. Nappi F, Chiozzini C, Bordignon V, Borsetti A, Bellino S, Cippitelli M, Barillari G, Caputo A, Tyagi M, Giacca M, Ensoli B. Immobilized HIV-1 Tat protein promotes gene transfer via a transactivation independent mechanism which requires binding of Tat to viral particles. *Journal of Gene Medicine*, 11 (11): 955-965, 2009 (article, ISSN 1099-498X, publisher: John Wiley & Sons).
 - 21.
